7. The DPD is not sound because it is not:

- (1) Positively Prepared
- (2) Justified
- (3) Effective
- (4) Consistent with national policy

8. Please provide precise details of why you believe the DPD is, or is not, legally compliant, sound or in compliance with the duty to cooperate in the box below.

If you wish to provide supplementary information to support your details, please ensure they are clearly referenced.

National Trust supports policy So/Wh which protects the immediate surroundings of the Thurgarton Hundred Workhouse from negative impacts. However, the first bullet point in the policy is currently a little inflexible (having regard to paragraphs 201 and 202 of the NPPF) and does not appear to allow public benefits (including potential heritage enhancements) to be weighed against harm.

(Continue on a separate sheet/expand box if necessary)

9. Please set out what change(s) you consider necessary to make the DPD legally compliant or sound, having regard to the test you have identified at 6 above where this relates to soundness. You will need to say why this change will make the DPD legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

We suggest the following adjustments to the first bullet point of Policy So/Wh to introduce the required flexibility:

“Development proposals within the area defined as the immediate surroundings of the Workhouse on the Policies Map should ensure that they do not negatively impact on these surroundings, either in terms of historic setting or rural character. Those proposals which do detrimentally impact on the setting of the Workhouse will not be acceptable be resisted. Any heritage harm will need to be outweighed by public benefits (which may include heritage enhancements) in accordance with national policy tests;

Please note your Representation should cover succinctly all the information, evidence and supporting Information necessary to support/justify the Representation and the suggested change, as there will not normally be a subsequent opportunity to make further Representations based on the original Representations at the Publication stage. After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for Examination.

8. Please provide precise details of why you believe the DPD is, or is not, legally compliant, sound or in compliance with the duty to cooperate in the box below.

If you wish to provide supplementary information to support your details, please ensure they are clearly referenced.

National Trust is concerned that the approach to Sherwood Forest ppSPA, insofar as it relates to Clumber Park SSSI, is not 'effective' in that it is not 'based on effective joint working on cross-boundary strategic matters'. This is because, on the basis of evidence including a Recreational Impact Assessment (RIA) for Clumber Park, it was found that development both within Bassetlaw and within Newark and Sherwood would jointly result in significant impacts on the SSSI, which in turn forms part of the ppSPA. The RIA report states that 17% of new housing within Newark and Sherwood Local Plan (1,487 new homes) would be located within 7.5km of the SSSI boundary. Through joint working between Bassetlaw District Council, Natural England and the National Trust, new policy wording was proposed by the Council during the Examination process (see below).

(Continue on a separate sheet/expand box if necessary)

9. Please set out what change(s) you consider necessary to make the DPD legally compliant or sound, having regard to the test you have identified at 6 above where this relates to soundness. You will need to say why this change will make the DPD legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

We request that the Council recognises the potential for housing development to have significant impacts on an SSSI at some distance from a site as a result of recreational pressure. Specifically we request that any large developments within the Impact Risk Zone of Clumber Park include an assessment of impact and associated mitigation measures. The following policy wording has been incorporated by Bassetlaw District Council into its biodiversity policy and may therefore be appropriate:

"proposals of 50 dwellings or more (which includes piecemeal planning applications for less than 50 dwellings for a wider site) that fall within an 'Impact Risk Zone' of a SSSI will be required to give appropriate consideration to the impact from the development upon the integrity of the SSSI, including recreational impact. Where impacts are identified, appropriate mitigation measures will be sought, and/or financial contribution to help mitigate identified impacts at the affected SSSI".

Please note your Representation should cover succinctly all the information, evidence and supporting Information necessary to support/justify the Representation and the suggested change, as there will not normally be a subsequent opportunity to make further Representations based on the original Representations at the Publication stage. After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for Examination.
